Smart Garage Door Opener
Belt or Chain Drive

ALADDIN CONNECT **Integrated Wi-Fi**

DC MOTOR **Durable Motor with Soft Start and Stop Control**

10 Year Limited Motor Warranty

PRODUCT HIGHLIGHTS

Smart Garage Capabilities

- **Security** – Instantly know if someone is operating your garage door without permission.
- **Convenience** – Open your door for family members, deliveries or service providers from anywhere with your smart device.
- **Safety** – Have garage door automatically close at a specific time or after an elapsed time period in case it's left open.

Quiet, strong performance

The strong 24 Volt DC motor operates most properly balanced residential sectional doors up to 10' high and 500 lbs. Model 2128 has an opening speed of 7" per second*.

Soft Start and Stop Control

DC technology allows your door to begin and end its movement smoothly instead of abruptly whenever you operate it, creating less noise and less wear on the door.

GenieSense™ Monitoring

Automatic force profiling and diagnostic technology improves safety by stopping operation when significant changes occur.

Dependability

The quality built into a Model 2128 is backed by 10 year motor and 15-Year belt drive rail Limited Warranties◊ (5-Year chain drive rail).

Battery Backup Version (Model 2128B)

Don't get locked outside the garage when the power goes out! **Must order 2128B, battery backup cannot be added later.**

*+/- 0.5" per second for sectional doors.
◊ Limited non-transferable warranty. See Programming, Operation and Maintenance manual for details.

Aladdin Connect®

Integrated Wi-Fi connectivity

Remotely monitor and control your garage door from almost anywhere with your smart device. Time-based features allow you to set door to automatically close and/or notify after a set length of time; as well as schedule a specific hour and minute to close the door and/or notify when it does. Allows for multiple individual user accounts so you can provide virtual key access for your garage door to a friend, relative, or service person for a certain time, a range of time, or permanently.

Non-Wi-Fi Model 2028H: The Model 2028H is also available, offering the same reliable performance and features without built-in Wi-Fi.

OPTIONS

Wireless Keypad: Easy-to-program, back-lit keypad, control up to 6 openers, Auto-Seek Dual Frequency (315/390 MHz), available in off-white.

Battery Backup Model (2128B): Allows operation in the event of power outage. Must order 2128B. Battery cannot be added later.

1-Button Remote: Simple design, Auto-Seek Dual Frequency, compatible with all Intellicode® equipped Genie openers.

Genie® LED Bulb: Bright lighting with vibration damage resistance. Designed not limit or interfere with garage door opener remote range.

FEATURES

Power and Control

DC Motor Smart Technology: The DC motor provides quiet operation with Soft Start and Stop control. Smooth operation reduces noise and wear on the garage door.

C-Channel Rail: Strong rail design promotes durability and safety with cleaner appearance.

Belt or Chain Drive: Select belt drive option for quieter operation or chain drive for economical value.

Safety and Security

Safe-T-Beam® Non-Contact Reversing System: When objects pass through the infrared beam, the garage door automatically stops closing and reverses to open without having to make physical contact with the door.

Intellicode® Access Security System: Prevents unauthorized remotes from controlling your door by changing code each time the opener is operated.

Sure-Lock™ Control: Lock out remote controls and wireless keypad at any time.

Convenience

Patented Frequency Switching: The opener automatically uses either 315 or 390 MHz frequency to avoid potential nearby interference, such as military base equipment, to help ensure the opener operates properly.

Pre-Programmed Remote: Ready to use out-of-the-box with simple steps to change the programming if needed.

HomeLink® and Car2U® Compatible: Works with current and ALL previous versions of HomeLink® or Car2U®. No additional external repeater kit or compatibility bridge needed.

6' Power Cord: For high ceiling applications.

Smart Lighting: Light bulb is positioned toward inside of garage, where light is needed most. Light stays on for 4 minutes once opener is activated. Genie branded LED light bulb recommended.

CALIFORNIA RESIDENTS – This opener has the option to add battery backup. As required by SB-969, all newly installed openers must have battery backup as of 7/1/19. To order this opener with battery backup, refer to Models 2128B. If needed, visit www.geniecompany.com or ask your Genie dealer for details.

◊ Limited non-transferable warranty. See Programming, Operation and Maintenance manual for details.
